September 2002 Production Calendar Change

The hard copy version of the September 2002 Production Calendar distributed in June with the Sys Ops Update is incorrect. Please make the following pen and ink changes to your Production calendars:

- Wednesday, September 18 - the *issue date* for the FS Run is September 19
- Thursday, September 19 - there will be a TA/FS/ME/AP Run with the *issue date* of September 20.

The on-line version of the calendar posted on the Systems Operations website is correct. Our web address is <http://dpasysops.hss.state.ak.us>.

Thank you.
